## A CLASS OF IT'S OWN!

Ultimate beach house wanting new owners with big family, lots of friends and an eye for quality.

Why-

Because it would be a crying shame if this magnificent home was not filled to capacity with joy and laughter on at least a semi-regular basis.

This is a home built from the ground up for comfort and relaxation, for fun and leisure, for entertaining and creating.

And most importantly it was built to provide a unique and luxurious lifestyle.

Colourful Mediterranean style floor tiles drag your eyes downward but step into the light
