An opportunity too good to miss.

One of our coastline's best kept secrets is also one of it's best investment opportunities.

Preston Beach is an idyllic beachside village, where developers are planning a substantial residential development in the near future. It's going to change but it isn't ever destined to become a city.

To invest in a beach shack now at Footprints at Preston Beach is to get in on the ground floor at one of Western Australia's finest 'sea change' destinations.

Kitchen is complete with all appliances
Crocery, glassware and cutlery

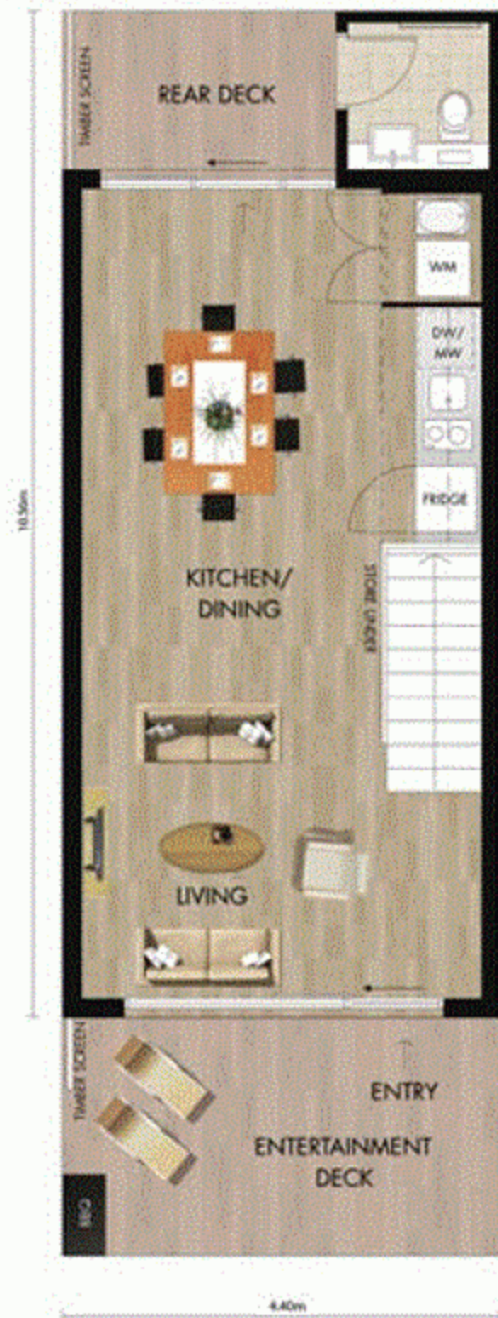

Price: \$289,000
