Add up the Massive Value

Head and shoulders above other properties, you will never grow out of this fabulous home, built with pride by Home Group WA.

Only four years old but amongst established homes you could not come close to replacing the value here.

Starting with the generous 858m2 corner block allowing unhindered side access from Rockland Road there is no compromises at all in this very substantial home.

Where else can you find 4 large bedrooms with walk in robes, plus a study, plus an activity room, plus a theatre room, plus a family/rumpus room plus an oversized alfresco and still have a huge open plan living area-

Still the value continues with fully ducted reverse cycle air conditioning to keep you cool in summer and warm in winter.

The future is bright with Australind undergoing a number of big infrastructure projects such as the new Bunnings Warehouse, Bunbury Catholic College new Mercy Campus and even a pro
