Brighten up your Life

Feel your spirits lift and the troubles from the day slide away as you arrive on the paved driveway of this fresh modern home. Designed and owned by a local building designer and built by a boutique Dunsborough builder, there is a level of craftsmanship not often seen.

As you walk across the jarrah decking and past lush gardens into the entrance hall with beautiful feature flooring, you will be impressed by the striking design of this glorious home.

Perfect for the entertainer, there is a fantastic kitchen with granite bench tops including breakfast bar overhang, stainless steel appliances, stunning feature lighting and it's very own butlers pantry that includes direct garage access, with storage galore and a second sink! This great open plan kitchen, dining and lounge, sets the tone of the home with a pop of colour, reverse cycle air-conditioning and beautiful lined-on-the rake ceilings. In addition there is also a very effective in-built wood-fired heater, for warm

posy evenings.
