SEEING IS BELIEVING

This lovely home on over a quarter acre sits high on the hill above the town and is only 1.2 kms from the cafes and shops.

The house has been sited on the block to take advantage of the views through the rose covered pergola and across established gardens.

A stunning new Acorn kitchen and bathroom make for contemporary living with a very generous open plan living area which has a reverse cycle air conditioner for year round comfort. A small deck off the open plan living area has wonderful views

All new LED lighting throughout.

The four bedrooms and two bathrooms are well separated from the living space making this a very easy house to live in. The design has been well thought out and would suit a family,
