

40 Chevis Court BRIDGETOWN, WA

PEACE AND PRIVACY

A unique private 5 acres and only 3 minutes into town, this is a very rare property indeed. It has all the benefits of country living but all the conveniences close at hand.

The home nestles into the secluded gently sloping block on a large flat area big enough for gardens, workshops, another house or room for pets and kids to play.

A long winding driveway takes you to the well built ranch style home in double brick and is located to make the most of the glorious valley views that Bridgetown has to offer and faces the rising sun.

There are lovely views from every window.
The slate floors in the kitchen dining area make it an easy house to live in with timber!
